## WORK EXPERIENCE

### Automation & MIS Lead — HR Operations

**Talent Carriage Management Pvt. Ltd., Noida** • *May 2025 – Present (10 months)*

- Served as internal automation consultant — led end-to-end process assessment, requirements gathering, solution design, and delivery for HR operations in a startup environment with no dedicated IT support.
- Architected and delivered the HRSS Command Center — a Power Apps hub portal mapping the full HR Shared Services catalogue into structured, step-by-step task checklists per service type. Built on SharePoint Lists as the live database; Power Automate flows handle automated notifications, status transitions, and escalation alerts across all active client accounts, ensuring zero-miss service delivery.
- Built Power Automate cloud flows for ticket management, notification routing, and SharePoint-based approval workflows — handling 200+ client requests per month with full audit trail.
- Developed Power Apps forms replacing manual paper-based data entry, integrated with SharePoint backend for structured storage and compliance tracking.
- Created Power Query-based multi-source data consolidation pipelines reducing MIS preparation from 4 hours to under 30 minutes.
- Designed Power BI dashboards tracking SLA performance, TAT, productivity KPIs, and aging analysis for management reporting.

### VBA Developer | MIS Specialist — Operations

**Pacific BPO, Noida Sector 63** • *Jun 2024 – May 2025 (11 months)*

- Automated data compilation from 10+ shared drive locations using VBA macros — replaced a 2-hour daily manual task with a single-click automated process, saving 40+ hours per month.
- Rebuilt process MIS dashboards with automated data refresh, exception flagging, and stakeholder-ready formatting — zero manual intervention required post-deployment.
- Built a Data Compiler Tool aggregating raw reports from multiple network folder locations into a unified master dataset on demand.

### MIS Specialist — Finance

**Protiviti, Cyber Hub, Gurugram** • *Aug 2022 – Mar 2024 (1 yr 7 months)*

- Developed VBA macros to automate finance data processing — extracting, transforming, and formatting data from multiple source files into consolidated management reports, reducing manual effort by 60%.
- Generated and maintained MIS data, monthly dashboards, and automated reporting packs published to senior finance stakeholders on a regular cycle.
- Analysed existing manual finance processes and identified automation opportunities through AS-IS process reviews.

### Process Developer | MIS

**Genpact, Gurugram** • *Sep 2011 – Aug 2022 (9 years 4 months)*

- Designed and delivered VBA automation tools across three separate banking and operations domains — automating data capture from PDFs, Excel sheets, Word documents, and Outlook emails simultaneously, achieving 100% processing accuracy across 500+ transactions per cycle.
- Performed AS-IS process analysis on manual banking workflows; defined automation scope and implemented macro solutions reducing processing time by 50% and error rates to near zero.
- Built an automated Outlook email MIS workflow — reading incoming emails as raw data, filtering, transforming records, and generating formatted Excel MIS reports automatically, eliminating a 3-hour daily manual task.
- Created, maintained, and published daily EOD and monthly MIS dashboards for banking operations teams across three business units.
- Handled customer account dispute resolution and payment and cheque operation investigations — building core BFSI domain knowledge directly applicable to RPA scope assessment.
- Enrolled in Records Team: processing, MIS reporting to stakeholders, resolving team system issues, and sharing daily work status updates.

## KEY PROJECTS

**HRSS Command Center** — *Power Apps · Power Automate · SharePoint Lists · 2025*

- Centralised hub portal for all HR Shared Services operations. Full service catalogue mapped into phase-wise task checklists enabling structured, auditable client service delivery. Real-time task tracking, automated notifications, and escalation flows across all client accounts.

**Onboarding Automation Tool** — *VBA · Outlook · Excel · Word*

- Full-cycle new hire automation — form data capture, email consolidation, MD-level distribution, and automated offer letter generation and delivery. Cut processing time from days to hours.

**HR Query Tracker** — *SharePoint Lists · Power Automate*

- Real-time ticket tracking and SLA notification system for client HR queries — zero-miss notification management across high-volume email traffic.

**ASR Tool (Assessment & Review)** — *VBA · Excel*

- Manager-facing digital appraisal form replacing paper process, with automated data routing to HR administration.

**CONSOLD ASR Tool** — *VBA · Outlook*

- Outlook automation macro collecting all appraisal submission emails, consolidating data, and delivering a structured file to HR without manual intervention.

**ARD Tool (Appraisal Report Distribution)** — *VBA · Outlook*

- Automated batch distribution of appraisal reports to HOD-level users — triggered by HR admin, zero manual email drafting.

**Data Compiler Tool** — *VBA · Excel*

- Multi-location shared-drive aggregation — pulls files from 10+ network locations into a single master dataset on demand. Replaced a 2-hour manual daily task.
